

Recycling Electronics

Electronic waste, or E-waste, includes computers, laptops, televisions, VCRs, DVD players, radios, stereos, copiers, monitors, cell phones, scanners and fax machines.

Electronic equipment can **NOT** be disposed of with regular garbage. Working electronics should be donated or sold for Reuse, thereby prolonging their useful life. Nonfunctioning electronics should be recycled at any of the following facilities.

All facilities are closed Thanksgiving Day, Christmas Day, New Years Day and Easter Sunday.
